

Expansion Joints Product Catalog

Technical Reference Document

This document provides general reference information. Final engineering selection and certified specifications should be confirmed from the applicable manufacturer/project documentation.

Parameter	Reference Information
Product	Rubber and metallic expansion joints
Applications	Pumps, HVAC, water lines and industrial piping
Functions	Absorb thermal movement, vibration and minor misalignment
Typical Sizes	DN25–DN1200
Connection	Flanged / threaded / welded as applicable
Materials	EPDM, NBR, PTFE, stainless steel and carbon steel options
Selection	Select according to pressure, temperature, medium and movement.

Document note: Dimensions, ratings, materials and performance are indicative unless a specific manufacturer/model is stated.
