

Bush Bearings Dimensional Chart

Technical Reference Document

This document provides general reference information. Final engineering selection and certified specifications should be confirmed from the applicable manufacturer/project documentation.

Parameter	Reference Information
Bearing Type	Plain / sleeve bush bearing
Materials	Bronze, sintered bronze, PTFE-lined and composite options
Typical Bore	10–200 mm
Lubrication	Self-lubricating or grease lubricated depending on type
Applications	Pumps, motors, conveyors, agricultural and general machinery
Selection	Check bore, outside diameter, length, load and speed before ordering.

Document note: Dimensions, ratings, materials and performance are indicative unless a specific manufacturer/model is stated.
